It is necessary to evolve UR since it plays an est in future development (Petrie, Darzentas, & \

The business world has significant, evolved and developed in the last couple of years. As the world changes to become man diverse and complex, conventional models of working are also giving way to more flexible appreaches and forms of organization and employment (Jekiel, 2016). In particular, globalizations, technology, as well as the changing workforce dynamics are adding to the challenges that organizations face in their everyday operations. It is also imperative to point out that the function of HR and Id grow and evolve so that it can play a fundamental role in developing organizations for the future (Netrie, Darzentas ?& Walsh, 2016). The purpose of this presentation is to explore how HR (Die Nikely to be transformed in the years to come.

Generation of Transformation

Enterprises must focu activities in their every to achieve the desired (Deloitte 2017; Petrie W. Ish, 2016).

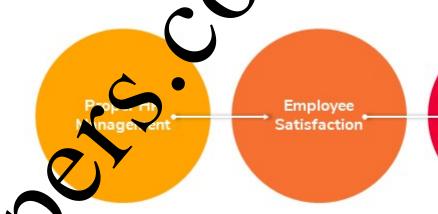

ery enterprise shou activities to respond to upcoming changes (A

Employees remain the most values e asset that organizations can have and use to achieve their short-term and long-term but less joals and objectives. Therefore, enterprises that seek to succeed in the current and future markets should quickly re-conceive and reconfigure their HR functions so that they focus on activities that will lead to the desired outcomes (Deloitte, 2017; Petrie, Darzentas, & Walsh, 2016). The process entails overhauling the current operations to ensure that they contribute to future organizational growth and success. Also, the HR activities should be structured in a manner that allows the organization in question to respond to the current and upcoming charges.

Why HR will Matter More than Ever?

- Enterprises face challenges that adversely affer and profitability (Budhwar & Mellahi, 2016; D 2017)
- Without proper HR functions and structures, It leverage on their workforce to achieve organize

Irrespective of the size, industry, and location of the company in question, it may face critical business challenges that carbave a negative impact on its success and profitability (Budhwar & ? Mellahi, 2016; DeNisi & Griffin, 2017). Collectively, such problems call on organizations to pay attention to their employees' capabilities so that they can work towards the desired end points. Without proper HR functions and structures, future organizations will not be able to leverage on their workforce to achieve aganizational goals and deal with current challenges. Furthermore, HR will enable such organization to optimize their human resource functions to achieve a competitive edge

Over the last three decades, Hk rese and functions have undergone significant changes and improvements. More specifically, Hk manager has evolved to receive an important role in the organization and be able to detectine whether an enterprise will achieve its goals and objectives (Johnson & Guetal, 2012). Furtheringle, HR management has evolved to become a major determinant of the ability of an enterprise to reach a competitive edge over its rivals. A careful analysis of existing body a research literature reveals that there is a broad range of factors that will drive HR role in the years to lome. These main factors include globalization, technology, profitability, and intralected capital.

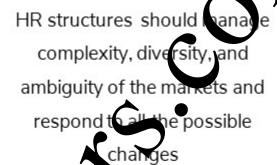

As noted earlier, future organizations need to work towards developing a workforce that will help them to achieve competitive to be. That is why HR managers and staff should work towards improving the intellectual capital of their organizations. As the world continues to change, the future HR roles are also likely to be transit med. Some of the main roles of future HR managers include creating compelling employees experience, using the agile approach in recruiting and developing employees, supporting the culture of collaboration in an organization, and contributing to the successful application of technology in everyday business practices and operations.

Adapting to changes

Adapting to changes

The rapid expansion and growth of the global markets have forced enterprises to balance between the local and international demands of their business. Therefore, companies are forced to come up with new ideas and products to meet the needs of their local and global customers. HR teams should embrace and respond to all the possible changes if they would like to help their organizations to succeed.

Collaborative working

In the future, Hi departments and teams need to focus on promoting collaborative working within the organization as it helps to leverage on the skills and capabilities of various employees so that an enterprise callachieve short-term and long-term business goals and objectives.

Future Skills of the HR

Cultural awareness

Self start

As organization will be dealing with a wide range of stableholders with diverse cultural background, the HR managers have to be aware of the ways of how to communicate with them (Mathis, Jankson, & Valentine, 2016)

Managing relationships

Good relationships are critical, the business environment. The available body of research evidence suggests that HR manager is considered to be a person who can help enterprises achieve a competitive advantage. One of the critical factors that will determine whether HR remains a key business function is the manner in which HR teams influence and manage relationships at the workplace. Future HR roles will strive to help organizations remain competitive by managing and supporting relationships that will ensure the growth of the organization and help in responding to the specific needs of customers.

Taking and understanding other people's perspectives

In the future, refunctions will focus on ensuring that organizations' managers possess the ability to employ, assimilate, compensate, develop, and retain talented employees. However, it will also be critical for them to understand the perspectives of employees and other coworkers so as to promote team work.

Conclusion

The level of comp

no ylobal market

The future role of and critical to the small, middle, and organizations.

The level of competition in the loca and dollal market has increased significantly in the last few decades. The trend is partially attributed to the appearance of new enterprises and the changing customer buying patterns. Beside factors such as globalization and technology have created new frontiers for enterprises to compete market share both locally and globally. The changes have propelled HR into a leading business process that can differentiate a successful organization from a non-successful one. The future role of HR remains bright and critical to the success of both small, middle, and large organizations. In particular, HR will continue to drive organizations towards their short-term and only term business goals.
