Harriet Tubman's early life was marked by the cruel institution of slavery, but it also shaped her determination to fight for freedom. Born Araminta Ross, she endured the harsh conditions and physical abuse that were all too common for enslaved individuals in Maryland. From a young age, Tubman witnessed the brutal separation of families and experienced firsthand the dehumanizing effects of bondage.

At just 12 years old, Tubman suffered a severe head injury when an overseer threw a heavy metal weight at another enslaved person but struck her instead. In 1849, Tubman seized an opportunity to escape from slavery when she learned that she was going to be sold along with other family members. With nothing more than sheer determination and limited resources, she embarked on a perilous journey northward towards freedom. Traveling mostly at night and relying on the guidance provided by abolitionist networks through the Underground Railroad, Tubman successfully made it to Pennsylvania – marking the beginning of her new life as a free woman.

Tubman's own experience of escaping slavery gave her unique insight into both its horrors and possibilities for resistance. Her remarkable journey would not only shape her personal narrative but also serve as inspiration for others seeking liberation from bondage.
