Exploring the Major Theme: Inner Beauty vs. Outer Beauty

Exploring the theme of inner beauty vs. outer beauty dates back to ancient times. The famous story of Helen of Troy, often described as the most beautiful woman in the world, illustrates this theme. Her outer beauty caused the catastrophic Trojan War, while her character and inner beauty were never given importance.

Over time, ancient civilizations started appreciating inner beauty. This shift was seen in works like Sappho's poetry, celebrating the beauty of the inner self. Interestingly, during the Renaissance, this theme further evolved. Artists like Leonardo da Vinci portrayed Mona Lisa not as a symbol of outer beauty, but as a woman of mystery and character. They focused more on her enigmatic smile, displaying inner beauty.

Understanding the Concept of Inner Beauty vs. Outer Beauty
